Arsalan Aslam

Lead Product Designer · Design Strategist

Lahore, Pakistan · arsalanaslam.se@gmail.com · +92 309 0414983 · linkedin.com/in/arsalanaslam1 · www.uxbyarsalan.com

SUMMARY

Lead Product Designer with 14+ years building web and mobile systems used by 20M+ people. Progressed from UX Designer into design leadership at Punjab Information Technology Board, leading design strategy across 10+ platforms, including iOS and Android apps, serving 168 departments. Now leading product design at Trade Unleashed, a retail and e-commerce ERP live across 1,000+ locations.

Experienced designing AI-powered interfaces, from automated dispatch to environmental health prediction, and integrating AI tools across design and content workflows.

Based in Lahore, open to senior product design roles (remote or relocation) where complexity meets scale.

EXPERIENCE

Trade Unleashed
Lahore, Pakistan · Remote

Lead Product Designer
Sep 2025–Present

– Lead product design for a multi-tenant retail and e-commerce ERP, live across 1,000+ branches, warehouses and locations, processing tens of thousands of orders a day, with a typical go-live of 1–4 weeks.

– Own the product end to end: POS, inventory, order fulfilment, storefront and analytics. Currently leading a visual restyle of the core ERP screens and designing the inventory analytics layer.

– In parallel, publishing AI-native design explorations (Stockpilot, Sambhal) with live prototypes at uxbyarsalan.com/explorations.

Co-Founder, Design
Sep 2020–Sep 2025

Part-time, alongside PITB

– Co-founded the company and shaped the early product and design foundations of the ERP, from the first POS and inventory flows to the design system the platform still runs on.

Punjab Information Technology Board
Lahore, Pakistan

Lead Product Designer
2023–2025

Official title: Program Manager, Design

– Led UX strategy and design operations across 10+ government platforms, managing a team of 10–12 designers, researchers, and developers serving 168 government departments.

– Drove Maryam Ki Dastak from concept to 2.1M+ service requests: a 5-module mobile-first ecosystem (citizen iOS/Android app, facilitator app, web portal, CRM, company registration) built in 3 months, scaled from 1 to 40 districts with 87,000+ facilitators and 76 services.

– Directed Punjab Jobs redesign for 500,000+ registered users and 2M+ job applications, with new job cards with salary data, a recruitment module replacing spreadsheet-based hiring, and a native mobile app.

– Managed Punjab AQI environmental monitoring for 36 districts: condition-specific health advisories, heatmap calendar visualization, real-time dashboard tracking 6 pollutants.

– Led PITB Official website redesign: 13 screens in 30 hours, bold dark theme anchored by a custom design system.

Principal UX/UI Designer
2020–2023

– Designed City Watch, a real-time surveillance platform for Punjab Safe City Authority integrating 8,000+ cameras, achieving an SUS score of 78.25 with 87.5% of users rating usability as high.

– Created Employee Self Service cross-platform mobile app for 3,500+ employees, reaching 98% daily check-in adoption, 120,000+ leave requests processed in 2 years, 10,000+ Play Store downloads, plus community features.

– Introduced PITB's first design system, reducing visual inconsistencies and developer revision cycles across all products.

Sr. UX/UI Designer
2019–2020

– Conducted 50+ user interviews, heuristic evaluations, and contextual inquiries across citizen-facing services.

– Implemented A/B testing and usability evaluations, improving form completion rates and reducing task completion times.

UX/UI Designer
2016–2018

– Designed 200+ responsive screens across 20+ government applications serving 20M+ people.

– Produced interactive prototypes that accelerated stakeholder approvals and reduced design iteration cycles.

Sport.CC Denmark
Web & UX/UI Designer 2012–2016
Designed live sports scoring platforms and a live cricket scoring app for a Denmark-based sports media company. Owned UX research, wireframing, and prototyping for web and mobile experiences serving an international cricket audience.
